

Speech Pathology

Onemda's skilled team of Speech Pathologists have the expertise and experience to help develop and improve communication skills and social engagement.

Skilled Speech Pathologists, Personalised Programs

Onemda's experienced team of Speech Pathologists will design a personalised therapy plan that meets your needs and goals. The team deliver a full range of services to help:

- ▶ Develop communication skills
- ▶ Build capacity for safe and independent eating and drinking

Our team specialises in:

- ▶ **AAC** – augmentative and alternative communication strategies and technologies to improve communication abilities
- ▶ **Social engagement**
- ▶ **Pronunciation and annunciation**
- ▶ **Mealtime plans and swallowing assessments** – to build capacity for safe and independent eating and drinking
- ▶ **Communication partner training** to help others support you with your communication and interactions.

Our program is supported by Allied Health Assistants who assist in the delivery of therapy programs, in close consultation with therapists.

Depending on what best suits the goals you have identified, we can deliver these services in your home, in the community or in our state-of-the-art Therapy Centre at Doncaster East.
